

### Stenham Wealth Management Launch Party

On Thursday 9th March, Stenham Wealth Management held a client engagement event to celebrate the launch of the new business, attended by 60 guests, held at the Jersey Museum. The event was primarily designed to thank the loyal private clients who migrated across from Credit Suisse. It was also a perfect opportunity to give some exposure to the Jersey Cheshire Home, a local charity providing support to disabled adults at a purpose built 'home' in the Island. As part of our local CSR program they have been nominated as charity of the year.

David Baker, MD at Stenham WM commented that the objectives for the event had been met and delighted so many clients attended. It is hoped that a similar event planned for the Guernsey resident clients taking place in July will be just as successful. Celebrating business success is important particularly so when this can involve client interaction.
